

R.V.R. & J.C. COLLEGE OF ENGINEERING

Department Information Directory

Academic Year: 2026–2027

Document ID: RVRJC-DEP-009

Version: 1.4

Effective Date: 01 July 2026

Policy Owner: Office of Academic Affairs

1. Overview

R.V.R. & J.C. College of Engineering consists of multiple academic departments offering undergraduate, postgraduate, and research programs. Departments are responsible for curriculum delivery, academic advising, laboratories, research activities, and student support.

2. Department of Computer Science and Engineering

Programs: B.Tech Computer Science and Engineering, M.Tech Computer Science, Ph.D. Computer Science.

Major areas: Artificial Intelligence, Machine Learning, Data Science, Cybersecurity, Cloud Computing, Software Engineering, Distributed Systems.

Major laboratories: Artificial Intelligence Laboratory, Data Science Laboratory, Computer Networks Laboratory, Software Engineering Laboratory.

3. Department of Information Technology

The department focuses on information systems, software development, databases, networking, and emerging digital technologies.

Major areas include Database Systems, Web Technologies, Cloud Computing, Information Security, Internet of Things, and Data Analytics.

4. Department of Electronics and Communication Engineering

The department focuses on electronics, communication systems, embedded systems, signal processing, and semiconductor technologies.

Major laboratories include Embedded Systems Laboratory, Communication Systems Laboratory, Digital Electronics Laboratory, and Microprocessor Laboratory.

5. Department of Electrical and Electronics Engineering

Major areas include Electrical Machines, Power Systems, Control Systems, Renewable Energy, Power Electronics, and Electrical Drives.

6. Department of Mechanical Engineering

Major academic areas include Manufacturing, Thermal Engineering, Robotics, Machine Design, Industrial Engineering, and Materials Engineering.

7. Department of Civil Engineering

Major areas include Structural Engineering, Transportation Engineering, Environmental Engineering, Geotechnical Engineering, and Construction Management.

8. Faculty Roles

Faculty members are responsible for teaching, student mentoring, assessment, academic advising, research, and project supervision.

9. Head of Department

The HOD coordinates departmental academic and administrative activities, including faculty coordination, curriculum implementation, laboratory management, student academic issues, and department-level approvals.

10. Academic Advisor

Each student is assigned an academic advisor. Students should contact their advisor regarding course registration, academic planning, elective selection, backlogs, and graduation requirements.

11. Department Office

Department offices normally operate Monday–Friday, 9:00 AM–5:00 PM. Students should check department notices for changes.

12. Student Support

Departments may provide academic mentoring, project guidance, internship guidance, placement coordination, research opportunities, and laboratory support.
