Scholarship and Financial Assistance Information

Academic Year: 2026–2027

Document ID: RVRJC-SCH-006

Version: 1.5

Effective Date: 01 July 2026

Policy Owner: Student Financial Assistance Office

1. Introduction

R.V.R. & J.C. College of Engineering provides scholarships and financial assistance based on academic merit, financial need, extracurricular achievement, or other approved criteria.

2. Merit Scholarship

The Merit Scholarship is awarded to students demonstrating exceptional academic performance. Continuing undergraduate students normally require a minimum CGPA of 8.5, no active academic disciplinary action, and successful completion of prescribed semester credits.

3. Need-Based Financial Assistance

Applicants may be required to provide income certificates, bank statements, tax-related documentation where applicable, family financial information, and academic records. The Financial Assistance Committee reviews applications.

4. Sports Scholarship

Students demonstrating recognized sports achievement may apply. Evidence of participation or achievement at recognized competitions is required.

5. Cultural and Technical Achievement Scholarship

Students with outstanding achievements in approved cultural, innovation, entrepreneurship, or technical activities may be considered. Supporting certificates and evidence must be submitted.

6. Scholarship Application Process

Students should log into the student portal, open the scholarship section, select the relevant scholarship, complete the application, upload supporting documents, and submit before the deadline. Incomplete applications may not be considered.

7. Selection Process

Applications are evaluated according to scholarship criteria. The committee may request additional documentation or conduct verification. Application does not guarantee selection.

8. Scholarship Renewal

Most scholarships require annual or semester-based renewal. Students may be required to maintain minimum academic performance, satisfactory attendance, good disciplinary standing, and required credit completion.

9. Multiple Scholarships

Students receiving other institutional financial assistance must disclose it. Students may not receive multiple scholarships that prohibit simultaneous assistance.

10. Scholarship Disbursement

Approved scholarship amounts are normally adjusted against tuition or eligible institutional charges. Direct payments, where applicable, are made through the registered student bank account.

11. Appeal

Students whose applications are rejected may submit an appeal within ten working days of receiving the decision.

12. Fraudulent Information

False financial or academic information may result in scholarship cancellation, recovery of disbursed funds, and disciplinary action.
